SOFTWARE ENGINEER

High-Performance Applications ♦ Continuous Improvement ♦ Efficient Debugging

Engineering Student: Hard working and always eager to learn more. I believe in team work and the best way to learn in this industry is to gain more experience. Eager to join as a junior full stack developer to help design game-changing web applications. I compile with and contribute to standards and procedures to ensure development consistency.

Technical proficiencies:

Python, Django, React.JS, Java, JEE, Hibernate, MySQL, SQL, JavaScript, Node.js, Spring - MVC, Spring, REST, Spring Boot, HTML, CSS, Multithreading, Dart, Kotlin, Android Development, Flutter, AWS, GCP

SOFTWARE ENGINEERING SKILLS

- | | |
